### **The Life Center's Hope Village & Heaven's Kitchen Progress Update**

The Life Center's current projects are the constructing of Heaven's Kitchen, an additional dorm facility for homeless clients and also a living facility for families with zero income. The two new living facilities will have beds available for up to 40 clients each.

We have land space available on our new Expansion Property for the three new facilities mentioned above. This property was purchased on January 28, 2011. The property is located on the south border of our Main Campus. Our current living facilities are full to capacity eighty percent of the time and the needs for assistance and shelter space are increasing.

Heaven's Kitchen is very important. The Life Center's existing cooking area is inadequate, so in addition to using our stove, we're using BBQ pits. When Heaven's Kitchen and cafeteria is built, the facility will be used for multi-purposes. The plan is to connect the new building to our existing Annex Facility.

We do have some start-up capital available, but more funds are needed in order to develop and make The Life Center's new Hope Village a reality. Materials, more stainless steel for the commercial-grade kitchen and volunteer builders/workers are needed.

We welcome Churches, Missions, companies or individuals who would be willing to donate or sponsor one of these projects. The Life Center is a 501c3 non-profit Organization. We ask that checks are made payable to: The Life Center or you could make a donation online at <http://lifecenterhouston.com>. For a tour of our facilities or more information, please contact Jeremy Boucher or Larry Lanz at 832-292-3295 or [lifecenterhouston@gmail.com](mailto:lifecenterhouston@gmail.com).

Thank you so much for your prayers and support.

On behalf of The Life Center,

Pastor Winston James
